Amendments to the Specification

Applicants thank the Examiner for notification to the effect that Applicants' cooperation is requested in correcting any errors of which applicant may become aware in the specification. Applicants submit herewith a copy of the replacement page from the Amendment and Response filed on 3 March 2004 (Exhibit A) which indicates amendments to the specification, specifically to update references to related Applications to indicate the Application Serial Number. The replacement page was submitted under cover of a Communication Re: Notice of Non-Compliant Amendment (Exhibit B) which indicated that the amendments had been updated with underlining to show insertions and strikethrough to show deletions to update application serial number, filing date, and publication number in a cited application. Finally, enclosed is a copy of the auto-replay facsimile transmission from the U.S. Patent and Trademark Office on 23 June 2004 (Exhibit C), which indicates receipt of this replacement page at the U.S. Patent and Trademark Office. Applicants' believe that the specification has been checked and amended to determine the presence of all possible minor errors.
